

# Visioneering Sustainability Alliance

## **Mission Statement**

To collaborate and integrate solutions among individuals, communities, and organizations, serving as a resource, catalyst and advocate for environmental justice, economic prosperity, and social equity for the Wichita Region.

## **Preferred Futures**

### **Transportation**

“To create a transportation system that moves people and goods with the most efficient use of economic and environmental resources in a manner which attracts new markets, supports green modes of transportation, and connects and promotes healthy communities.”

### **Energy Efficiency**

“To reduce overall power use in the Wichita MSA by maximizing energy efficiency, maintain an energy supply based on renewable and environmentally sound resources, and base energy decisions on the overall sustainability of society to protect human health and promote economic prosperity.”

### **Water Quality**

“To establish a stable and plentiful water supply for the Wichita MSA that maximizes water conservation and minimizes water use, and assures a level of water quality that protects public health and natural ecosystems, while providing a firm framework for economic development.”

### **Air Quality**

“To assure a level of air quality in the Wichita MSA that lowers CO<sub>2</sub> levels, meets national standards, and has no negative impact on the health of humans, natural ecosystems, or economic development in.”

### **Solid Waste**

“To eliminate solid waste generation and the use of landfill space in the Wichita MSA in a manner which maximizes the sustainable use of environmental resources to protect future generations, natural ecosystems, and economic development activity.

### **Built Environment**

“To build affordable, high performance buildings, with less materials and energy in the Wichita MSA that promote a high quality of life, protect environmental resources, and support economic growth.”
